https://github.com/bkhanal87/JavaScript-Password-Generator

Experience

Release of Information Specialist, U.S. Department of Veterans Affairs

Cincinnati, Ohio   10/2022-Present

- Process all incoming requests to the facility for the Release of Information (ROI) along with the information required by the VA Regional Office through the Automated Medical Information Exchange (AMIE)

- Personally greet veterans/visitors, and assist them in determining the exact nature of the request and whether the information can be released
- Receives and directs callers and visitors. Receives and/or gives out forms and assists visitors and/or callers with the completion of forms or documents. Responds to questions from patients concerning services. Provides advisory and technical assistance to patients, administrative staff, and professional staff regarding the release of information
- Review paper and computerized health records (i.e., scanned notes, reports, special tests, etc.) to identify material to be photocopied/printed/written to electronic media and released. Compose responses to routine requests for the release of patient information

Front End Developer, Nationwide   04/2022 –
09/2022
Work From Home, Ohio
- Developed and maintained a wide range of APIs for both new products and existing application upgrades.
- Collaborated with Enterprise Architecture, Web Development, and Core Development teams to ensure successful API implementation and integration.
- Provided high-quality, efficient technology solutions to business partners by designing, developing, and implementing projects, and maintaining the environment(s)
- Analyzed solutions, developed, tested, debugged, documented, and deployed software according to standards in an agile environment
- Used DevSecOps practices, tooling, and techniques to build, monitor, and maintain a release management environment to allow for development and testing
- Stayed current with the latest trends and advancements in API development, continually enhancing skills and knowledge to drive innovation.
- Managed medium to large project priorities, deadlines, and deliverables proactively; performed other responsibilities as assigned

Accountant/Examiner II, Opportunities for Ohioans with Disabilities   07/2018– 03/2022
Cincinnati, OH

• Detailed-oriented accountant examiner who worked closely with ten vocational rehabilitation counseling staff to ensure that services were authorized, and payments were vouchered consistently, accurately, and timely. Effectively processed the highest number of authorizations (3,500) for the State Fiscal Year 2021 (October 2020 through October 2021) in comparison with other Accountant Examiners throughout the State of Ohio.

• Successfully coordinated with ten external vendors by reviewing detailed quarterly reports with analysis for submission to the supervisor for quarterly meetings.

• Demonstrated strong analytical and critical thinking skills by making independent decisions and showing good judgment while working well with a diverse group of people and following policies, procedures, and office protocols to help track and ensure the most efficient use of Ohio's taxpayers' dollars.

            • Utilized current technology and tools to complete fiscal responsibilities

Administrative Assistant III, <u>Department of Corrections</u>   06/2017-07/2018

Denver, CO

- Demonstrated willingness to learn by assisting staff throughout the department with setting up their computers, installing software, and general IT issues.
- Efficiently provided technical and administrative support around project and task management
- Coordinated purchase of office supplies and reconciled and balanced budget by making use of the Colorado Operations Resource Engine (CORE), an integrated financial management system
- Worked with a team of five upper-management professionals to complete complex projects on tight budgets within a specified time

Health Information Specialist III, <u>SCL Health</u>   08/2014-06/2017

Denver, CO

- Efficiently used various computer programs for organizing and retrieving data and accurately processed and maintained various types of records
- Effectively assisted customers with releasing information needs per HIPAA and Federal and State regulations governing the release of protected health information.
- Deliberately answered incoming telephone calls, assisted walk-in customers, and made copies of medical records available for them for their upcoming appointments and personal needs
- Consistently prepared around 150 charts for scanning, indexing, and analyzing for chart completion
